

NewFunds MAPPS Protect ETF

Minimum Disclosure Document - 31 December 2019

Portfolio objectives

NewFunds MAPPS™ Protect is a uniquely designed ETF which offers investors exposure to multi-asset classes. NewFunds MAPPS™ Protect replicates the total return* performance of South African equities through SWIX 40 Index, nominal bonds through GOVI Index, inflation-linked bonds through ILBI Index and cash or allowable money market instruments. MAPPS™ Protect ETF portfolio is made up of :Equity (40%), Nominal Bonds(15%), Inflation-linked Bonds (35%) and Cash (10%).

The MAPPS™ Protect ETF is aimed at investors with a shorter time horizon (e.g. closer to retirement) and a lower tolerance for returns variability and would prefer a more stable return stream.

Worst Annual Return	-4.1%

Last 4 Distributions

Month	Net Distribution
November 2019	37.65c
July 2019	39.08c
April 2019	36.72c
January 2019	32.15c

Annualised return is the weighted average compound growth rate over the period measured. Performance is calculated using the NAV of the Portfolio and represents only past performance. An individual's performance may differ to that of the portfolio as a result of initial fees, brokerage, actual investment date, dividend withholding tax and income reinvestment date. The reinvestment of income is assumed to be effected on actual distributed amount net of withholding taxes; and on distribution payment date.

The current dividend yield is 3.83%.

Risk profile

Moderate

Portfolio details (cont.)

Max Management Fee	0.40% ¹
Annualised TER	0.35% ²
Annualised Transaction Cost	0.04% ³
Effective Annual Cost	0.38% ⁴

Notes

1. Maximum management fee is the maximum fee which the manager charges for the portfolio. Where the TER is lower than the management fee, the Manager has subsidized or waived allowable expenses. Such subsidies and waivers are not guaranteed perpetually and a higher TER may incur in the future.
2. The Total Expense Ratio (TER) is expressed as a percentage of the daily NAV calculated over a rolling 3 year annualised period.
3. The Transaction Cost of the Portfolio is expressed as a percentage of the daily NAV and is calculated over a rolling 3 year annualised period.
4. The Effective Annual Cost (EAC) measure is a combined sum of the TER and Transaction costs.
5. Scrip Lending - The portfolio does not engage in scrip lending at this stage.

Glossary of terms

Annualised Return - The weighted average compound growth rate over the period being measured.

Annualised Risk - A measure of how much the investment return varies from its average over time.

Constituent Security - A stock which is part of a larger portfolio.

Drawdown - A measure of the deterioration of the portfolio from its historical peak (highest level of the fund), measured since the relevant reference point.

Exchange Traded Funds (ETF) - A listed instrument listed on the JSE whereby the investor essentially owns a proportionate share of the underlying investments held by the Portfolio.

Liquidity - The ease of buying and selling a financial instrument for cash.

Market Maker - The market maker attempts to maintain a high degree of liquidity through continuously offering to buy and sell participatory interests at prices around the NAV, thereby ensuring tight buy and sell spreads.

Net Asset Value (NAV) - The NAV is the total assets of the portfolio less the liabilities.

Net Distribution - Accrued income and dividends less portfolio expenses, which is distributed to investors.

Price Momentum - A measure of the performance or the return of a security over a recent time period, generally 12 months (excluding the latest month).

Portfolio Risk - A measure of the risk inherent in a portfolio incorporating individual stock volatility as well as the covariance structure of stocks in the portfolio.

Rebalancing - Rebalancing is when the asset manager buys and/or sells constituents in a portfolio in order to bring the portfolio in line with the index being tracked.

Scrip Lending - The lending of securities from one party (being the holder of the securities) to another party (the borrower). The borrower provides collateral for the securities borrowed.

Total Expense Ratio (TER) - This is the total costs associated with managing and operating an investment (excluding financial planning). These costs consists primarily of management fees and other operational expenses such as audit and custody fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs.

Volatility - Measures the dispersion of price returns around the average over a specific period of time.

Legal disclaimer

NewFunds (RF) Proprietary Limited ("NewFunds") is a registered and approved NewFunds Collective Investment Scheme in Securities (NewFunds CIS) under the Collective Investment Schemes Control Act 45 of 2002. The information contained in this document is provided for information purposes only and does not constitute (i) financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act, 37 of 2002; or (ii) any other financial, investment, trading, tax, legal, accounting, retirement, actuarial or other professional advice or service whatsoever ("advice") or (iii) provide the basis of any credit, financial or other evaluation. It does not purport to be a prospectus for any security, financial product, transaction or service nor is it deemed appropriate and/or suitable for any particular investment, investor's objectives or financial circumstances. This document is neither an offer to sell nor a solicitation of an offer to buy any of the products and, while every effort is made to ensure the information contained herein is complete and accurate, any pricing and other information included herein is indicative only and is not binding as such on Absa Bank Limited and NewFunds (collectively "the Promoters"). Accordingly, the information contained herein merely contains a description of certain facts as at the date hereof and investors are advised to carry out their own independent investigation and appraisal and seek their own advice prior to making any decision or taking action based on information contained herein. The Promoters disclaim any liability for any direct, indirect or consequential damage or losses that may be suffered as a result from using or relying on the information disclosed. Investors are advised that not all risks and issues related to the products are disclosed and therefore, Investors should familiarize themselves with the products and the risks and issues related to or associated with them. Collective Investments Schemes in Securities ("CIS") are generally medium to long term investments where the investor essentially owns a "proportionate share" (in proportion to the participatory interest held in the fund) of the underlying investments held by the fund. The value of participatory interests may fluctuate as a result of market moves, associated external factors and risks, and past performance is not generally a guide to future performance. Any information on past financial returns, modelling or back-testing cannot be guaranteed nor does NewFunds guarantee with respect to the capital or return of any portfolio of NewFunds CIS. Listed CIS products are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges is available from NewFunds upon request.
