

NewFunds Volatility Managed High Growth Equity ETF

Minimum Disclosure Document - 30 June 2022

Portfolio objectives

The Portfolio will track and replicate the NewFunds/Absa Volatility Managed SA High Growth Equity Index, an index which allows an Investor to gain full market exposure to a universe of 15 liquid, JSE-listed equity securities selected on a 70/30 factor specification to momentum and low volatility characteristics demonstrated in their performance. The Portfolio will comprise of both equity securities and cash (assets in liquid form), the proportion of which will be determined by the risk management process (the concurrent target volatility control mechanism and drawdown management process). The target volatility control mechanism aims to increase the proportion allocated to equity securities during periods of low volatility; and in turn increases the proportion allocated to cash during periods of high volatility. Specifically, where volatility rises and exceed the target threshold of 20%, the proportion allocated to cash will be increased. Where such volatility decreases, the proportion allocated to equity securities will be increased. The drawdown management process aims to increase allocation to cash during periods where the drawdown of the equity basket approaches 30% i.e. where there is a 30% fall from the most recent price peak. In all instances the trade threshold is set at 10%.

Performance and statistics

Cumulative wealth and equity allocation chart

Returns table

Period	ETF (%)	Index (%)	Diff.
3 Months	-12.93	-12.75	-0.18
YTD	-3.96	-3.34	-0.62
1 Year (Ann.)	10.36	12.72	-2.36
3 Years (Ann.)	0.61	2.57	-1.95
5 Years (Ann.)	-	-	-
Full Period (Ann.)	2.33	4.09	-1.76

Risk statistics

Statistic	ETF (%)
Risk (Ann.)	16.52
Max. Drawdown	-32.97
Best Month	8.68
Worst Month	-16.58
Best Annual Return	30.72
Worst Annual Return	-29.40

Income distributions

Month	Gross (cents per unit)	Net (cents per unit)
May 2022	4.22	3.38
January 2022	3.34	2.68
October 2021	17.15	13.87
July 2021	5.16	4.13

Annualised return is the weighted average compound growth rate over the period measured. Performance is calculated using the NAV of the Portfolio and represents only past performance. An individual's performance may differ to that of the portfolio as a result of initial fees, brokerage, actual investment date, dividend withholding tax and income reinvestment date. The reinvestment of income is assumed to be effected on actual distributed amount net of withholding taxes; and on distribution payment date.

Legal disclaimer

NewFunds (RF) Proprietary Limited ("NewFunds") is a registered and approved NewFunds Collective Investment Scheme in Securities (NewFunds CIS) under the Collective Investment Schemes Control Act 45 of 2002. The information contained in this document is provided for information purposes only and does not constitute (i) financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act, 37 of 2002; or (ii) any other financial, investment, trading, tax, legal, accounting, retirement, actuarial or other professional advice or service whatsoever ("advice") or (iii) provide the basis of any credit, financial or other evaluation. It does not purport to be a prospectus for any security, financial product, transaction or service nor is it deemed appropriate and/or suitable for any particular investment, investor's objectives or financial circumstances. This document is neither an offer to sell nor a solicitation of an offer to buy any of the products and, while every effort is made to ensure the information contained herein is complete and accurate, any pricing and other information included herein is indicative only and is not binding as such on Absa Bank Limited and NewFunds (collectively "the Promoters"). Accordingly, the information contained herein merely contains a description of certain facts as at the date hereof and investors are advised to carry out their own independent investigation and appraisal and seek their own advice prior to making any decision or taking action based on information contained herein. The Promoters disclaim any liability for any direct, indirect or consequential damage or losses that may be suffered as a result from using or relying on the information disclosed. Investors are advised that not all risks and issues related to the products are disclosed and therefore, investors should familiarize themselves with the products and the risks and issues related to or associated with them. Collective Investment Schemes in Securities ("CIS") are generally medium to long term investments where the investor essentially owns a "proportionate share" (in proportion to the participatory interest held in the fund) of the underlying investments held by the fund. The value of participatory interests may fluctuate as a result of market moves, associated external factors and risks, and past performance is not generally a guide to future performance. Any information on past financial returns, modelling or back-testing cannot be guaranteed nor does NewFunds guarantee with respect to the capital or return of any portfolio of NewFunds CIS. Listed CIS products are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges is available from NewFunds upon request.

Absa Bank Limited Reg No 1986/004794/06, an Authorised Financial Services Provider (FSP 72), Registered Credit Provider Reg No NCRCP7. NewFunds (RF) Proprietary Limited registration number 2005/034899/07.

Portfolio details (cont.)

Management Fee	0.50% ¹
Annualised TER	0.50% ²
Annualised Transaction Charges	0.58% ³
Annualised Total Investment Charges	1.08% ⁴

Notes

1. Management fee is the fee which the manager charges for managing the portfolio and is inclusive of VAT. Where the TER is lower than the management fee, the Manager has subsidized or waived allowable expenses. Such subsidies and waivers are not guaranteed perpetually and a higher TER may incur in the future.
2. The Total Expense Ratio (TER) is expressed as a percentage of the daily NAV calculated over a rolling 3 year annualised period.
3. The Transaction Cost of the Portfolio is expressed as a percentage of the daily NAV and is calculated over a rolling 3 year annualised period.
4. The Effective Annual Cost (EAC) measure is a combined sum of the TER and Transaction costs. The fees above are as at 30 June 2022.
5. Scrip Lending - The portfolio does not engage in scrip lending at this stage.

Glossary of terms

Annualised Return - The weighted average compound growth rate over the period being measured.

Annualised Risk - A measure of how much the investment return varies from its average over time.

Constituent Security - A stock which is part of a larger portfolio.

Drawdown - A measure of the deterioration of the portfolio from its historical peak (highest level of the fund), measured since the relevant reference point.

Exchange Traded Funds (ETF) - A listed instrument listed on the JSE whereby the investor essentially owns a proportionate share of the underlying investments held by the Portfolio.

Net Distribution - Accrued income and dividends less portfolio expenses, which is distributed to investors.

Portfolio Risk - A measure of the risk inherent in a portfolio incorporating individual stock volatility as well as the covariance structure of stocks in the portfolio.

Scrip Lending - The lending of securities from one party (being the holder of the securities) to another party (the borrower). The borrower provides collateral for the securities borrowed.

Total Expense Ratio (TER) - This is the total costs associated with managing and operating an investment (excluding financial planning). These costs consist primarily of management fees and other operational expenses such as audit and custody fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TERs.
