etfSA Income Model Portfolio

Factsheet – December 2023

The Home of Exchange Traded Funds®

PORTFOLIO DESCRIPTION

The objective of the etfSA Income Model Portfolio is to offer a strategic asset allocation into a select range of income-producing SA ETFs listed on the JSE. Sources of income may be interest or dividends. This is a low-cost portfolio, suitable for use in a discretionary or tax-free investment account.

The portfolio does not pay out interest or dividends – any distributions received from underlying investments remain in the portfolio to allow for additional compounded growth.

INVESTOR PROFILE

The Portfolio is suitable for an investor with an investment horizon of less than 3 years – investors with a below-average risk tolerance, who wish to receive the income earned in the interest earning and high dividend ETFs that make up this portfolio.
