PORTFOLIO DESCRIPTION

The objective of the etfSA International Model Portfolio is to offer a strategic asset allocation into a select range of JSE-listed, Foreign Equity ETFs. This is a low-cost portfolio, suitable for use in a discretionary or tax-free investment account.

The portfolio does not pay out interest or dividends – any distributions received from underlying investments remain in the portfolio to allow for additional compounded growth.

INVESTOR PROFILE

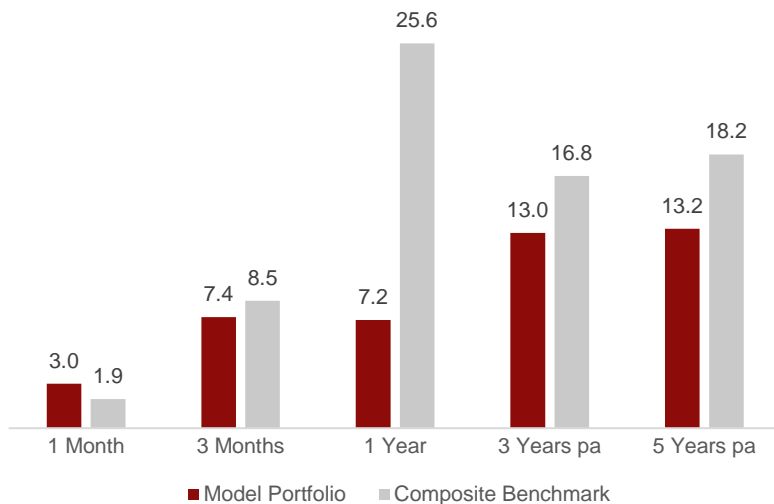

The Portfolio is suitable for an investor with an investment horizon of at least 10 years – it is designed to provide rand-hedge protection with growth in capital. The portfolio is only suitable for high risk-tolerant investors. This represents a high risk investment as significant losses may occur in the event of rand appreciation.
