

**PORTFOLIO DESCRIPTION**

The objective of the etfSA International Model Portfolio is to offer a strategic asset allocation into a select range of JSE-listed, Foreign Equity ETFs. This is a low-cost portfolio, suitable for use in a discretionary or tax-free investment account.

The portfolio does not pay out interest or dividends – any distributions received from underlying investments remain in the portfolio to allow for additional compounded growth.

**INVESTOR PROFILE**

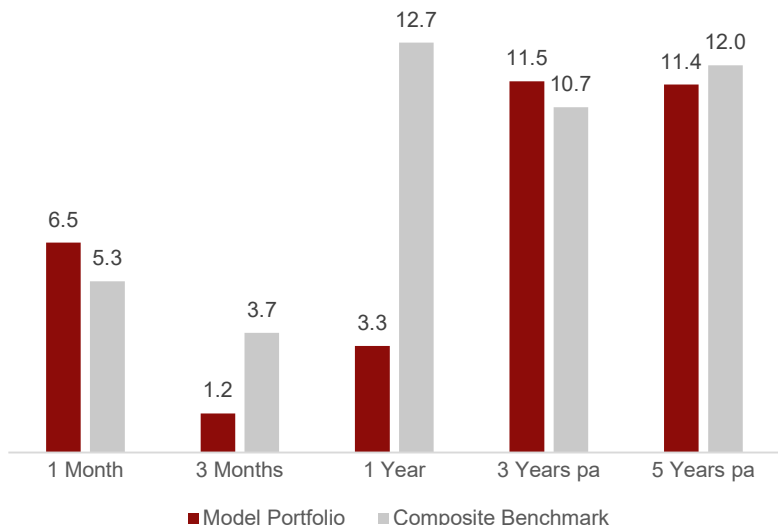

The Portfolio is suitable for an investor with an investment horizon of at least 10 years – it is designed to provide rand-hedge protection with growth in capital. The portfolio is only suitable for high risk-tolerant investors. This represents a high risk investment as significant losses may occur in the event of rand appreciation.
