ETFSA LA Wealth Enhancer Portfolio

PORTFOLIO DESCRIPTION

The objective of the ETFSA LA Wealth Enhancer Portfolio is to offer above-average returns to investors with a long-term investment horizon (at least 10 years) and a high tolerance for risk (short term volatility), by following a pro-active allocation to passively managed portfolio building blocks (ETPs) which are expected to offer good investment value in the medium term. Although the portfolio aims to add an element of protection to invested capital, it does not offer capital or performance guarantees, therefore portfolio value fluctuations may occur in the short term.

INVESTOR PROFILE

The Portfolio is ideal for investors who want a low cost, transparent investment-linked living annuity. The portfolio is suitable for an investor with a long-term investment horizon – it is designed to provide maximum growth in capital with a high targeted real return. The portfolio is well-suited for risk-tolerant investors, seeking long term wealth creation, who in terms of their liabilities, must earn investment returns more than inflation.
