

ETFSA LA Wealth Maximiser Portfolio

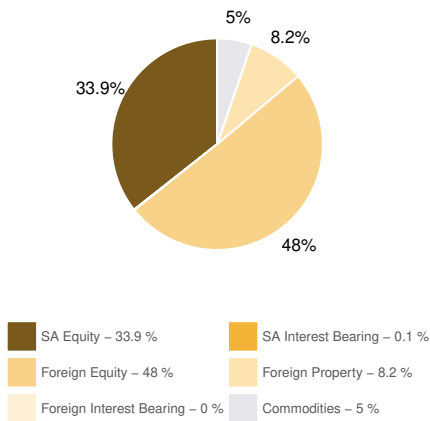

PORTFOLIO DESCRIPTION

The ETFSA LA Wealth Maximiser Portfolio aims to preserve the purchasing power of assets over time by achieving targeted returns of 10% in excess of the level of inflation (as measured by the Consumer Price Index, or CPI) over rolling seven year periods, while reducing the volatility associated with market-linked investments. The Portfolio is constructed through strategic allocations into a range of exchange traded products, exposed to different asset classes, which optimises the cost efficiency and transparency of the Portfolio.

INVESTOR PROFILE

The Portfolio is ideal for investors who want a low cost, transparent investment-linked living annuity. The portfolio is suitable for investors with a very long investment horizon, who want to maximise the potential capital growth of their retirement savings through a very high targeted real return. The portfolio is only suitable for investors with both a very high tolerance for risk, and sufficient capital to withstand significant potential drawdowns in the near term.
